

Army University Spouse Development Office

*Spouse Development
is Our Business!*

Who We Are

The SDO empowers Army spouses to successfully navigate Army life and pursue personal and professional goals through innovative initiatives that optimize, strengthen, and enhance spouse education.

The SDO develops strategies to train, educate, and grow leaders to advocate for spouse education program goals that support four strategic outcomes for Army spouses: **leadership, readiness, balance & resilience, and Army culture.**

We work to support spouse employment efforts and promote a transfer of skills and knowledge into employability skills, connect and prepare spouses with resources and tools; all of which positively impacts Total Army Readiness.

Synchronization

We build collaborative relationships across the Army and joint community, in order to align and progress spouse education.

Digital Resource Launchpad

We provide easy access to a full range of support resources, and spouse courses and curriculum.

Spouse Education Tracking System

Spouses self-register for assigned courses and submit requests to obtain their cumulative Army Spouse Learner Record.

How We Do It

Identify gaps within the Army's spouse education capabilities, support established policies that impact Army spouses, and synchronize learning progression for Army spouses in existing TRADOC Professional Military Education (PME) programs.

Maintain a spouse education tracking system (SETS), a high quality registrar system that enables spouses to obtain a cumulative record of courses attended with contact hours.

Implements a process for granting Continuing Education Units (CEUs) for participation in validated spouse courses.
